## 企業責任

# 環保及生態環境

黃蜂香港致力於環保及生態環境保育及支援，在溫室氣體及碳排放日益嚴重的情況下，現時全球多國都定下停售汽油車的目標，如英國目標年份為 2030 年，而日本就擬於 2030 年代中執行。最近消息指政府有意在 2040 年停售汽油私家車，以實現 2050 年前達到碳中和的目標。

混能車及電動車普及將是未來大趨勢，黃蜂香港將在混能及電動車之電池上繼續研發專利技術，在電池之耐用性及持續性加以改善，並支持更多型號之車種。

同時集團跟不同車行商戶亦會合作提供電池折扣及額外保養推廣混能車及電動車之使用，為地球盡一分力。

所有旗下電池之回收亦會按照法定之方式妥善處理，以減低電池對環境之破壞。

## 企業責任

# 社區關懷

生於斯，長於斯，黃蜂香港以香港為本，有義務為這地方貢獻，以香港為基地提供更多就業，為研發團隊提供開發資源，令香港能源技術人才得以提升。

在社區服務方面，我們在 2022 年間成立社會企業品牌「Mr. Wrapper 貼膜份子」並與香港唐氏綜合症協會達成合作協議，為車主提供優質實惠的貼膜鍍膜服務之餘，亦讓唐氏學員得到就業機會及實踐，希望令更多社會有需要人士得以透過我們的項目計劃重投社會，建立更多人與人之間的聯繫，同時亦會銷售特殊人士製作之工藝品，以及全天候之捐款計劃，是項社企的所有收益將會撥捐到支持弱勢社群項目之上，為需要幫助的市民提供更多資源。

除了現金捐款外，黃蜂的理念是授之以魚不如授之以漁，在集團的業務中，能為弱勢社群提供就業機會，我們也會盡力協調。目前為黃蜂香港的辦公室清潔、車隊清潔均以弱勢社群為首選。我們相信在持續經營業務的過程中，公司的理念及價值觀更為重要，我們的團隊亦在業務發展中獲益良多。

黃蜂每星期也會安排旗下空置的出租車隊為唐氏人士提供接送服務，讓他們更方便前往進修及覆診，令空置中的車輛發揮最大價值。現時我們每月接送服務平均為 70 架次，我們期待在車隊擴展後，我們能夠提供更多相關的支援，並覆蓋更多需協助之機構。

我們亦致力推動員工參與義工服務，公司有專屬的義工團隊，不定期為患者提供義工服務，員工的服務時數亦會得到表揚、資助及獎勵，在工作之餘，不忘為社會出一分力。

## 企業責任

# 工作環境

員工是公司最重要的資產，我們秉承以人為本之原則，為員工提供良好的工作環境，以及晉升發展等幫助。

黃蜂集團之辦公室應用開放工作環境，員工於公司可以在不同地方工作、面談及會議等，比起傳統工作氛圍，我們更注重員工的創造力、專注力、勞逸平衡，公司架構簡單，員工可以發揮他們的長處，一起架構集團的發展。

另外，集團鼓勵員工貢獻社會，對於員工參與義工服務，會提供相關支援及資源；員工亦能享受到比法定假期更多的員工福利，讓他們可以有更多時間發展自己、陪伴至親、計劃將來。

## Corporate Responsibilities

# ENVIRONMENTAL PROTECTION & ECOLOGICAL ENVIRONMENT

The WASP Group is committed to environmental protection, ecological environment conservation and support. In the context of increasingly serious greenhouse gas and carbon emissions, nowadays many countries all over the world have set a target to stop the sale of gasoline vehicles. For example, the United Kingdom decides to end the sale by 2030, while the Japanese government plans to implement in the mid-2030s. Recent news suggests that Hong Kong government intends to suspend the sale of gasoline private cars in 2040, in order to achieve the goal of carbon neutrality by 2050.

The popularisation of hybrid-electric vehicles and electric vehicles will be a major trend in the future. The WASP Hybrid Group will continue to develop patented technologies on hybrid-electric and electric vehicle batteries, improve battery durability and sustainability, and support more models of vehicles.

The Group will, at the same time, offer battery discounts and additional maintenance in cooperation with different car dealers to promote the use of hybrid-electric vehicles and electric vehicles, as contribution to the planet.

The recycling of all our batteries will also be properly handled, in accordance with law to reduce the battery damage to the environment.

## Corporate Responsibilities

# COMMUNITY CARE

Born and grown in Hong Kong, WASP HK Limited is based in Hong Kong and is obliged to contribute to this place. Our company uses Hong Kong as its base of operations to create more job opportunities and provide the R&D team with development resources to nurture local energy technology talents.

In terms of community service, Mr. Wrapper, a social enterprise, was founded in 2022, and a cooperation agreement with the Hong Kong Down Syndrome Association was reached, to provide quality and affordable film sticking and coating services, while creating job opportunities and hands-on experience for trainees with Down syndrome. We have a vision of promoting social inclusion and establishing interpersonal connections. Handicrafts made by people with special needs will be sold and comprehensive fundraising campaigns will be launched. All proceeds of this social enterprise will be donated to support community projects that help the needy, in order to provide them with more resources.

In addition to cash donations, WASP is of the belief that teaching someone how to fish is better than simply giving them fish. Our company endeavours to offer opportunities for disadvantaged groups throughout the business. At present, positions of offices and fleet cleaning are preferred to be held by the disadvantaged. While continuing operations, we believe that it is important to uphold our company's philosophy and value, our team has benefited tremendously as well.

WASP arranges available fleets to provide pick-up services for people with Down Syndrome every week, making it easier for them to attend classes and medical follow-ups, putting the cars into the best use. At present, we are providing an average of 70 pick-up services per month. We hope that after the expansion of our fleet, more support and greater coverage on organisations in need can be provided. We are also committed to engage employees to take part in volunteer services.

Our company has a dedicated volunteer team that provides volunteer services to people with Down Syndrome from time to time. Employees' service hours are also well-commended, subsidised and rewarded. We want to make a meaningful contribution to our society even after work.

## | Corporate Responsibilities

# WORKING ENVIRONMENT

Employees are the most important asset to the company. We uphold the people-oriented principle to provide employees with a pleasant working environment and offer help in promotion and personal development.

The WASP Group office is an open working environment. Employees can work, conduct interviews and hold meetings in different places within the company. Compared with traditional working atmosphere, we pay more attention to our employees' creativity, concentration, and balance between work and rest. The company structure is simple. Employees can give full play to their strengths and structure the development of the Group together.

In addition, the Group encourages employees to contribute to society, and provides relevant support and resources for employees participating in volunteer services. Employees enjoy extra employee benefits other than statutory holidays, so that they can have more time to develop themselves, accompany their loved ones and plan for the future.
